2012 FILM SERIES

NON-DRUG APPROACHES TO CURING PEOPLE DIAGNOSED WITH SERIOUS MENTAL ILLNESS

Wilda Marston Theater --7:00 to 9:00 PM

3600 Denali St., Anchorage, AK 99503

Located in the Z.J. Loussac Library

This film series by [Daniel Mackler](#), a former psychotherapist, shows people who have fully recovered without psychiatric drugs after being diagnosed with serious mental illness and programs that help people do it. This is contrary to what we have been led to believe.

Please Join us for these films and in the discussions that will follow them.

[TAKE THESE BROKEN WINGS](#) [Recovery from Schizophrenia Without Medication](#)

Take These Broken Wings shows that people can recover fully from schizophrenia without psychiatric medication. According to most of the mental health field, and of course the pharmaceutical industry, this is not possible. How little they know – or want to know! The film centers on the lives of two women who both recovered from severe schizophrenia.

[OPEN DIALOGUE](#) [An Alternative, Finnish Approach to Healing Psychosis](#)

In the far north of Finland a group of innovative family therapists converted the area's traditional mental health system, which once boasted some of Europe's poorest outcomes for schizophrenia, into one that now gets the best results in the world. They call their approach Open Dialogue. They have literally eliminated schizophrenia in their area because people recover before the six months required to be labeled with that diagnosis.

[HEALING HOMES](#) [An Alternative, Swedish Model for Healing Psychosis](#)

Healing Homes chronicles the work of the Family Care Foundation in Gothenburg, Sweden -- a program which helps people recover from psychosis without medication. Healing Homes weaves together interviews with clients, farm families, and staff members to create both a powerful vision of medication-free recovery and an eye-opening critique of the medical model of psychiatry.
