**Subject:** FDA Whistleblower Disclosure and Petition

Dear Senator Grassley,

I am a former government employee and FDA whistleblower who has previously dealt with your office. This is to inform you that I have just whistleblown to my congressman, Representative Jamie Raskin, and to the House Oversight and Government Reform Committee, and to ask your assistance. Right now I have mixed feelings about your office and whether this request will be acted upon or forwarded to you. I had good experiences when Emilia DiSanto was your chief investigator, whereas dealing with her replacements has resulted in a series of disappointments including being told "so *what*" when I presented documentation of babies being killed.

The issues I am whistleblowing about predate the present administration, which is not involved in them. Nevertheless they are still important as people continue to be poisoned and killed on a daily basis.

For this and other reasons I am attaching my disclosures and petitions to Representative Raskin and the House Oversight committee as well as a personal petition I sent to President Trump and I am asking you to do the following:

- To make sure that the President is aware of my petition requests to him and to provide him with my personal petition so that he receives it as soon as possible and if necessary also provide him with my complaint to Representative Raskin and the House Oversight committee.
- To advocate on my behalf and ask the President to grant my personal petition requests to him both in my letter to him and the letter to the House Oversight Committee. As well as additional petition requests including requests that will follow with my full disclosure.
- To work with Representative Raskin to obtain bipartisan and bicameral support for my other petition requests to Congress contained in the full disclosure and petition, and to use my case to guarantee the right of government whistleblowers to jury trials.
- To contact the press to garner support for my petition requests and in particular FoxNews in order to garner support from the President's base.

Thank you in advance for your assistance.

Respectfully submitted,

Ronald E. Kavanagh, B.S.Pharm., Pharm.D., Ph.D., R.Ph.
