[<======== MAIN TEXT ======>] Seroquel USPT Meeting Minutes

May 10, 2000

Attendees: Brain Ault, Kendra Baker, Don Beamish, Mike Czupryna, Deni Deasy, Jim Eash, Scott French, Jeff Goldstein, Michael Hickey, Steve Koelsch, Gerald Limp, Jamie Mullen, Mike Murray, Fred Nicklas, Georgia Tugend, Paul Yueng

Apologies: Shawn O'Brien

Decisions/Discussion Points

Ad Hoc team to be formed to deal with FDA letter re: HTG & diabetes. Team leader: Gerald Limp. Team members: Martin Jones, Martin Brecher, Paul Duffy, Vikram Dev, Jamie Mullen, Ihor Rak.

The Clinical Development Plan for Seroquel was presented and agreement was reached on the ranking of the priority/projects. The budget for this plan will be developed in a rough version to be followed with a more precise version at a later date

The Lieberman trail proposal was approved as a 3-arm trial.

The SR study options were reviewed. The USPT position was to recommend two studies: one for accelerated approval in

the US and another for ROW needs that would include IR comparators. Granules should be moved to priority 2.

Although it is recognized that a more restrictive label may be imposed for Seroquel, there will be no changed to the

elderly promotional strategy at this time.

ACTIONS

Description Responsibility Target Date

Recommendation for SOP safety reports presented. Overall review and sign-off to be obtained. Communication of change to affected groups Scott French

Brian Ault 4/30/00*
