Dear Dr. Small,

It was a pleasure to talk with you on the phone today.

As promised, I have enclosed a number of manuscripts either published or in press, as well as copies of recently presented posters. These should help to update you on the most recent findings with Seroquel. Please feel free to reference any of this material as you feel appropriate. However, if you want to reference any of the unpublished material, please give me a call first so we can decide the best way to do this without jeopardizing the primary publication.

I hope that your New Year is off to a great start, and I look forward to continued collaborations with you.

Sincerely yours,

Jeffrey M. Goldstein, Ph.D.
International Principal Pharmacologist
Assistant Director, Clinical Medicine
