Attachments: SEROQUEL TEAM Roles Contact Info (toLD02Aug05) (2).doc
Thought I should share some good news from Parexel MMS with all of you--I am very
pleased to announce the promotions of Donna Casparro and Lauren Duby.

Donna is now Director, Client Services for the Parexel MMS AstraZeneca Business
Unit. As Associate Client Services Director, Donna was responsible for overseeing the
Parexel MMS/Seroquel global publications business. In her new role, Donna will be
responsible for overseeing all Parexel MMS/Seroquel business.

Lauren is now Program Manager for the Parexel MMS AstraZeneca Business Unit. As
Account Executive, Lauren was responsible for supporting the Client Services Directors
on the Seroquel U.S. business. Lauren 'naturally' moved into a more managerial role,
and so now will be the direct point of contact for some of our Seroquel Clients.

I have also attached a grid which shows the Parexel MMS/Seroquel team roles and
responsibilities. If you have any questions about anyone's role, please don't hesitate to
ask me.

Thanks!
Claudia
