Good enough it's agreed then the minutes will read "We're effing screwed!!!!". I just hope to get them issued before the SEROQUEL team is due to update the TALT again.

With respect to James, any news on which way the fickled finger of accountability is pointing.

Thanks Kevin. I know the minutes will be good. Just make sure that you continue to use lots of exclamation marks and perhaps a bit more foul language. James is already aware of the warts but he hasn't seen it all pulled together yet.

Don,

I was thinking of issuing something short and punchy to get James' attention. Something along the lines of "We're screwed!!!"

Seriously, I will be issuing minutes, but they will be short and sweet. I will gladly run them by you for comment.

Have you talked to James about the mania submission. The reason I ask is that, as you known, the CSRs are out for review to a wider audience. A preemptive updating of James would be adviceable as he will find out about the warts.

Kevin,

If you were planning on issuing minutes for the TALT yesterday, I would appreciate seeing a copy of the Seroquel mania section before release. I was happy with the discussion but I want to make sure that the minutes reflect my understanding of the takeaway messages.

Thanks.
