Medical Center
1501 Kings Highway
PO Box 33932
Shreveport, LA 71130-3932

Dear Dr. Dwyer,

Thank you for submitting your research proposal on regulation of glucose metabolism as it relates to the therapeutic action of antipsychotic drugs. Dr. Jamie Mullen had received it and passed it along to me for further consideration.

Unfortunately at this time there is no money in the budget to support such a study. However, we would be more than happy to send you a sample of Seroquel for use in your research. Should you be able to generate results that differentiate Seroquel from other atypical antipsychotic drugs, I would be more than happy to present your results to the business for possible further support.

Please let me know if you would like to proceed under these conditions. I will then arrange to have the necessary forms sent to you so that you can be sent a sample of Seroquel.

Thank you for your interest, and I look forward to hearing back from you.

Sincerely yours,

AstraZeneca Pharmaceuticals

Jeffrey M. Goldstein, PhD, MSc
Global Scientific Advisor, Seroquel
