Hi Ihor,

We're trying to put SQL study #31 to bed (haloperidol non-responders randomized to SQL or Thorazine). As none of us were involved in the study, we were wondering if there was a lead PI outside AZ that was named in this project?

thanks,

Wayne

ator_listin...

Jim - Attached is a comprehensive listing of investigators. Included are multiples for some sites that may reflect changes made both to the assigned PIs and to the sites addresses. Wayne is going to ask Ihor if there was a principal investigator named.

Kind Regards,

Tina
