**Subject:** Updated DRUGDEX Monographs

Hi Jim,

I am working on a motion for a preliminary injunction I expect to file shortly after everyone's responses to the complaint are in and in working through that it has become apparent the most recent DRUGDEX® monographs are extremely relevant. For example, the FDA approved Seroquel and Zyprexa for limited pediatric uses on December 4, 2009, which is not reflected in the DRUGDEX monographs I have. The injunction which I will be seeking would, of course, not prohibit causing or presenting claims to Medicaid for those newly approved indications. Additions to medically accepted indications as a result of new FDA approval is easy enough for me to pick up, but DRUGDEX also updates its monographs pertaining to indications that have not received FDA approval.

It seems likely the judge would order your client to provide them in the context of the motion for preliminary injunction and I can certainly subpoena them to a hearing (subject to your possible objection), but I would prefer not to have to go to the court. Therefore, I am writing to ask if your client would voluntarily provide me with copies of the most recent monographs, and updates as they occur, for the drugs included in the [Medically Accepted Indications Chart](#), plus the following drugs which I intend to add to the chart:

- alprazolam (Xanax®)
- Clonazepam (Klonopin®)
- clorazepate (Tranxene®)
- diazepam (Valium®)
- flurazepam (Dalmane®)
- lorazepam (Ativan®)

- temazepam (Restoril<sup>®</sup>)
- zaleplon (Sonata<sup>®</sup>)
- Zolpidem (Ambien<sup>®</sup>)

Granting me access to DRUGDEX would certainly be acceptable to me and presumably easier for your client, but I know your client closely guards access to DRUGDEX.

Perhaps your client can grant me access to just the drugs of interest. Again, these would be the drugs included in the [Medically Accepted Indications Chart](#) as well as those listed above.

Please let me know.
