Yvette,

Yes, Let's jump on it. The Brecher reprint carrier continues to move quickly so let's go ahead and take these at a discount. Thanks for sending along this opportunity.

Dave

Subject: Brecher reprints

Dear Yvette

We have just discovered that our printers have a stock of 10,000 reprints of Dr Brecher's paper "The Long-term effect of quetiapine (Seroquel) monotherapy on weight in patients with schizophrenia" from International Journal of Psychiatry in Clinical Practice. I wondered if you would be interested in purchasing them for a discounted price. I can offer them for REDACTED plus delivery (charged at cost). Previously you paid REDACTED for 50,000 reprints (i.e. REDAC per 10,000), and a new printing of 10,000 would cost REDACTED. The reprints are shrink-wrapped in 100s.

Please let me know if this is of interest.

with kind regards

REDACTED
