Pursuant to Minnesota Statute 151.47 Wholesales drug distributor licensing requirements, Novartis Pharmaceuticals Corporation forwards to the Minnesota Board of Pharmacy, the Gift Disclosure Report for period of January 1, 2005 through December 31, 2005. Based upon our good faith and understanding of this statute as well as our current business systems, we have used our best efforts to make this report as accurate as possible. This report includes honoraria and payment of the expenses of a practitioner who serves on the faculty at a professional or educational conference or meeting. We are also reporting compensation for the professional or consulting services of a practitioner in connection with research projects.

Payments made to sponsors of a medical conference or to healthcare organizations for educational programs are not included in this report as Novartis Pharmaceuticals Corporation funds these programs via grants and these funds are not paid to healthcare practitioners.

This report does not include payments made to practitioners for honoraria or expenses associated by third party vendors on behalf of Novartis.

Also, payments made to Minnesota practitioners for market research activities will not be included so that we can maintain the anonymity and confidentiality of respondents. Further, NPC will cease all marketing research activities within the state of Minnesota effective 1/6/06.

Dear Mr. Wiberg:

Pursuant to Minnesota Statute Section 151.47(f), SmithKline Beecham Corporation, d/b/a GlaxoSmithKline hereby submits to the Minnesota Board of Pharmacy the 2005 payments, reimbursement or other compensation paid by GlaxoSmithKline to individual practitioners which totaled \$100 or more which are authorized by Section 151.461(3) to (5).

The attached report reflects payments (identified to date) made by GlaxoSmithKline to Minnesota practitioners for consulting services and services provided in connection with educational programs. However, GlaxoSmithKline needs additional time to determine whether any additional fees from research and development projects were payments or other compensation to a Minnesota practitioner. In the event that GlaxoSmithKline identifies additional payments that must be reported, we will promptly send a supplemental report to the Minnesota Board of Pharmacy.

GlaxoSmithKline has arrangements with foundations, universities, contract research organizations and other business entities to conduct research or provide information under which payments may be made by such institutions to Minnesota practitioners. Compensation to Minnesota practitioners in these cases is not from GlaxoSmithKline; therefore, payments to these entities are not reflected on the attached report. Similarly, the report does not state payments to sponsors of independent medical conferences, continuing medical education programs, professional meetings or other educational programs, where GlaxoSmithKline may provide funds through a grant to an organization, but does not pay a practitioner (e.g., unrestricted educational grants).

Although the Minnesota law states that the reports are public data, GSK considers the information in this report to be confidential and propriety information. GSK does not publicly release this information or the company documents that were used to create this report. Further, release of the entries in this report or the aggregate information in this report may give GlaxoSmithKline's competitors information that may undermine its relationship with its contractors and consultants and enable competitors to gain a business advantage.

If the Minnesota Board of Pharmacy has any questions regarding this letter or the information contained in our report, please contact me at (919) 483-9938.

Sincerely,

Arjun Rajaratnam
Vice President & Compliance Officer Global Pharmaceuticals
