Such physician shall state the facts and clinical determinations which support the allegation that the subject of the petition meets each of the criteria for assisted outpatient treatment.

 (3) If the subject of the petition has refused to be examined by a physician, the court may request the subject to consent to an examination by a physician appointed by the court. If the subject of the petition does not consent and the court finds reasonable cause to believe that the allegations in the petition are true, the court may order peace officers, acting pursuant to their special duties, or police officers who are members of an authorized police department or force, or of a sheriff's department to take the subject of the petition into custody and transport him or her to a hospital for examination by a physician. Retention of the subject of the petition under such order shall not exceed twenty-four hours. The examination of the subject of the petition may be performed by the physician whose affirmation or affidavit accompanied the petition pursuant to paragraph three of subdivision (e) of this section, if such physician is privileged by such hospital or otherwise authorized by such hospital to do so. If such examination is performed by another physician, the examining physician may consult with the physician whose affirmation or affidavit accompanied the petition as to whether the subject meets the criteria for assisted outpatient treatment.

 (4) A physician who testifies pursuant to paragraph two of this
- accompanied the petition as to whether the subject meets the criteria for assisted outpatient treatment.

 (4) A physician who testifies pursuant to paragraph two of this subdivision shall state: (i) the facts which support the allegation that the subject meets each of the criteria for assisted outpatient treatment, (ii) that the treatment is the least restrictive alternative, (iii) the recommended assisted outpatient treatment, and (iv) the rationale for the recommended assisted outpatient treatment. If the recommended assisted outpatient treatment includes medication, such physician's testimony shall describe the types or classes of medication which should be authorized, shall describe the beneficial and detrimental physical and mental effects of such medication, and shall recommend whether such medication should be self-administered or administered by authorized personnel.
