Analysis includes all hospitalizations in the Vermont State Hospital and all involuntary hospitalizations (Emergency Examinations and Applications for Involuntary Treatment) in designated community hospitals during the report period. Designated community hospitals include Central Vermont Hospital, Fletcher Allen Health Care, Rutland Regional Medical Center, Windham Center and the Brattleboro Retreat.

\*Rate of involuntary care is "Incidents per Patient Year". A patient year is the number of patient days in the time period divided by 365.

\*\*Data not available.
