#### MTP#1 Legal

D/ This was escorted to court at 8a.m. and returned at 1225. Pt. was observed to utter unintelligible statements continuously throughout this time. He stated, **"you just want to throw me in a cage, lock me up like an animal... take all of my money and try to poison me!"** Upon return to the unit pt. declined to consume his lunch, claiming that it was "poison... you guys are trying to pump shit in my veins!" Pt.'s affect was paranoid and mood ranged from hostile to silly.

A/ Staff monitored pt. q-15 per 1st degree COSS. Staff offered options like encouraging pt. to take a personal T.O. in his bed area in order to reduce the stimulation when behavior escalated. Staff escorted pt. downtown for court hearing.

R/ Pt. opposed encouragement from staff, insisting that he was fine and just wanted to be left alone. He continued to make persecutory statements to himself. There is no other problem behavior to note at this time.
